

OEM Wholesale Audio

Car Multimedia System Catalogue

OEM Wholesale Audio manufactures and sources High Quality Replacement Head Units for a wide range of vehicles. The units feature GPS Navigation, Full Colour Reverse Camera, Bluetooth Handsfree Car Kit with media streaming, DVD, CD, USB Player and iPod, iPhone compatibility and are designed to fit and compliment your customer's vehicle.

Our all new 2016 GX platform features lightning fast reverse camera speed (under 1.5 seconds to activate) RDS, Android Mirror Link, Capacitive touch screen, all at affordable pricing.

Our aim is to provide an all-in-one media unit that has all your current needs in one convenient well built, well designed aesthetically pleasing unit.

All our units come with a 24 month warranty and technical backup and support based here in New Zealand.

We have extensive quality control checks both here and at manufacturing level and we personally 'bench test' each unit here in New Zealand before it goes to the end user. We offer models to suit most vehicles, both new or used and supply units to many new car dealerships nationwide.

We have supplied units to several nationwide organisations vehicle fleets including the New Zealand AA Road Service.

We have a network of installers nationwide who are trained to professionally fit your new Media Unit. Whether you have a used Japanese import with a frustrating stereo or a New Zealand new vehicle without GPS and Reverse Camera we have a solution for you.

OEM Wholesale Audio is 100% New Zealand owned and operated.

This catalogue is correct at time of printing in May 2016, however please feel free to call us for any other required information.

Wince System

CPU:800MHZ CUP Main Frequency, RAM:256M Ram Memory

HD Capacitive Touch Screen

Unique 3D Flash Graphical User Interface

Mirror Link Function

Front DVR Camera (High Solution & Speed)

Full Colour Reverse Camera

Support External OBD (• Special Order)

1080P HD Video Display

Audio Copy From CD to SD/USB

Built-in HD GPS/Dual Zone System

High Definition Capacitive Screen

Our GX series of media units has a full HD screen with immediate response, using the latest mobile phone technology in the screen, our devices boast enhanced screen brightness, with improved appearance and performance in New Zealand's bright sun. These units support 1080p video display and have an industry leading camera response time of under 1.5 seconds to operate fully.

Android Mirror Link.

On devices equipped with Android 4.0 and above our GX range of devices support two-way mirror link. You can display your mobile phone on the in-car media unit and control the phone from the touchscreen.

You can play and view video, listen to and control your music library, view SMS, (don't text when driving) and operate nearly all other smartphone functions all on your in-car media screen. Supports both portrait and landscape modes. You can also control your Android device from the in-car media screen.

GPS / Satellite Navigation

Our units all come with optional GPS with either IGO or SYGIC, the leading providers of in car GPS devices.

Our maps are designed to work with the unit allowing media functions to continue to work in the background and the GPS voice instructions to blend in seamlessly.

All our maps are the latest available and have search by street, ideal for large metropolitan areas, with blurred boundaries.

REVERSE Camera

We can supply brand new wide angle cameras, IP 68 rated. These cameras have superb image and lightning response time. Easily installed by a professional, these cameras are a superb addition to an OEM Media unit.

Bluetooth

All our devices are supplied with an external bluetooth microphone for increased call quality. Our units will also download the customer's phonebook and allow searching via keypad. Bluetooth music playback is also available via the Bluetooth music feature (A2DP).

YOUTUBE Channel

OEM Audio has our own YouTube channel:
www.youtube.com/OEMAUDIONZ

On this channel we have over 70 videos from demonstrations to tutorials.

On demand we will promptly upload additional video on customer request.

AM/FM Playback

All our radio tuners are in NZ frequencies and feature (GX model and RX only) RDS Radio Data System, simply put means that the Station identifier is displayed on the OEM Media centre, making it easier to understand what station is currently being played.
